

12' by 56' Angle Bracket QuickBerm - 12" Wall Height

Product Images

Short Description

- L-Shaped stainless steel wire form brackets, spaced every 2 feet along the side walls provide sturdy

sidewall support

- No frames or straps inside or outside of the berm wall to take up space or create a tripping hazard
- Top 1-inch hem adds strength and prevents wall sag – reinforced corners to 100% containment
- Durable fuel and chemical-resistant geomembrane liner
- 12" wall height
- Best for applications with limited need for vehicles driving in/out, such as storage for transformers, generators, metal/polytanks, IBCs, etc.
