

Berm Repair Kit - 18 oz Yellow PVC

Product Images

Short Description

Repair your berm on the fly or in the field with the BCI spill containment berm repair kit that contains everything needed to re-seal your berm in case of a tear. This kit contains all the essential elements needed to repair small to medium tears. The included heat gun makes sure any tears are sealed seamlessly and without leaks. Alternatively, using the PVC glue is possible to complete the repair when electricity is not available.

BCI Berm Repair Kits can be used to repair a variety of berm types. Repair your berm quickly and efficiently with the Basic Concepts berm repair Kit.

Kit Includes:

- Heat Gun and Nozzle
- Scissors and Utility Knife

- Pressure Application Roller
- PVC Cement
- Sand Paper
- 10 square feet of PVC coated repair material in yellow
