

Premium Decon Shower with 2 Stage Containment Berm and Pump

Product Images

Short Description

- 2 Stage Decontamination Berm (6'x10'x8") of heavy duty chemical resistant flexible geomembrane.
- Drain port for each stage.
- Grating for both sections of berm to raise the user above the level of fluid.
- 110V sump pump for draining active section of berm.
- 5'x5' collapsable tent enclosure wrapped with Marine Grade material with entrance.
- This kit includes the Basic Concepts Deconomy Decon Shower (also available as a stand alone unit). Shower is fed by standard garden hose and produces greater than 2.5 gallons per minute of flow from 2 nozzles.
